ART & HUMANITY IN MEDICINE/ MINDFUL PHYSICIAN **Wednesday, 12/7/16** at noon in 1394 (where the previous two meetings have been). This will be an interactive continuation of our last meeting on the reflective nature of narrative meeting. Feel free to come even if you did not attend the last one. As there are two national medical poetry contests coming up, we will also be practicing our penmanship based on what each one of us think poetry is. Join us to relive and share medical experiences as well as flex your mettle as a world renowned poet.
