Agenda

9:00am-9:30am Registration

9:30am- 10:30am Post Partum Depression and It's Treatment

Kevin Junkins, MD and Shilpa Sammeta, MD

Following this session, participants should be able to:

Discuss the etiology and screening of postpartum depression. Its risk factors and its effects on the health of infants.

10:30am-10:45am BREAK

10:45am- 11:45am LGGBTQQI AAAPDK?: Providing Care for Sexual and Gender Minority Youth

Bridget Skidmore, MD

Following this session, participants should be able to:

Discuss sexual and gender minority youth, apply evidenced based practices and advocate and provide resources for treatment needs.

11:45am-1:15pm LUNCH and LEARN LUNCH PROVIDED

Panel of Featured Speakers

Following this session, participants should be able to: Identify clinical and practice challenges related to child and adolescent psychiatry.

1:15pm-2:15pm Nurturing Babies Brain Through Communication, Relationships and Stimulation

Amanda Newhouse, LICSW

Following this session, participants should be able to:

Enhance parent/caregiver perspective on brain development, healthy social/emotional development in newborns. Assist providers in translating and transferring the necessary skills to promote happy and healthy families in the community.

2:15pm-3:15pm Impact of Parental Psychopathology on Children's Development

Toni Goodykoontz, MD

Following this session, participants should be able to:

Recognize the effects of parental mental illness and substance abuse on the development and psychiatry outcomes in children.

We will focus on parental substance use (specifically

alcohol, marijuana, nicotine, cocaine and opiate use disorders) and on parental depression and borderline personality disorder.

3:15pm- 3:30pm BREAK

3:30pm- 4:30pm Pediatric Psychology: The Intersection of Physical and Mental Health

Jennifer Ludrosky, PhD

Following this session, participants should be able to: Recognize the concept of Pediatric psychology and identify the most common issues where children's medical and psychological functioning collide. Child practice frequently involves facing issues outside one's specialty track.
