WEST VIRGINIA UNIVERSITY SCHOOL OF MEDICINE

National Committee for Quality Assurance Recognizes Clark K. Sleeth Family Medicine Center as Level 3 Patient-Centered Medical Home

PCMH Level 3

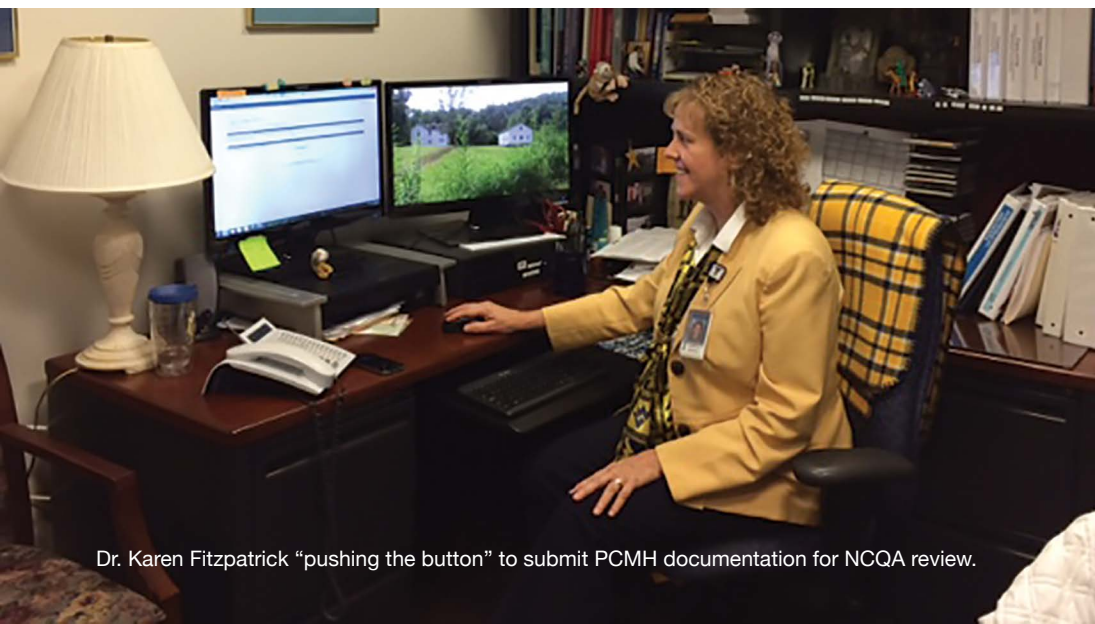

Clark K. Sleeth Family Medicine Center, the Department's academic Family Medicine practice, was recently recognized as a Level 3 Patient-Centered Medical Home by the National Committee for Quality Assurance (NCQA).

The Patient-Centered Medical Home (PCMH) is the best practice model for high-value primary care delivery.

A medical home is a primary care practice that has redesigned its processes, policies and culture with five evidence-based enhancements associated with higher quality care: (1) better access, (2) more comprehensive team-based care delivery, (3) better care coordination, (4) patient-centered care, and (5) continuous quality improvement. PCMH lowers the cost of care by preventing unnecessary emergency department

visits and hospitalizations, by providing evidence-based preventive care and better chronic disease management.

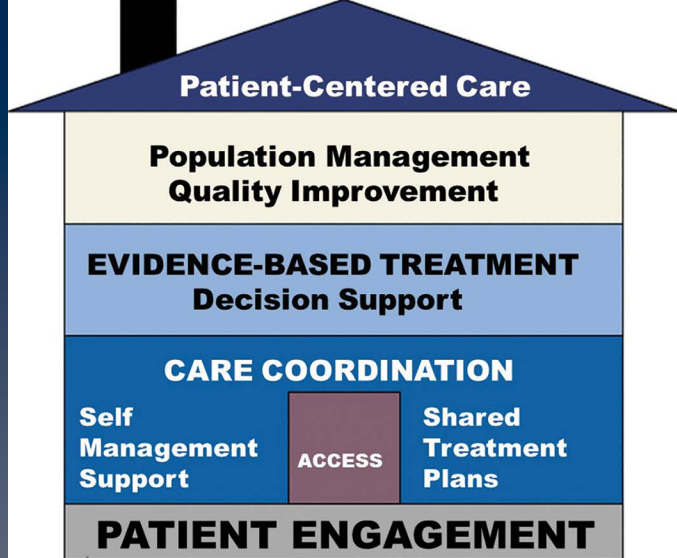

Since early 2012, Clark K. Sleeth Family Medicine Center has progressively transformed into a successful PCMH. The Department's providers and staff focused on physician-led teams to more effectively coordinate care, including reminding patients who are due for care, improving access to same day

Dr. Karen Fitzpatrick "pushing the button" to submit PCMH documentation for NCQA review.

visits, and advice, tracking care outside the office. NCQA recognition as a LEVEL 3 PCMH validates that the Department's practice has the necessary components for continuous improvement and delivery of high quality, patient-centered care.

The Department has created an academic PCMH Family Medicine fellowship to develop PCMH practice transformation physician leaders for West Virginia. Dr. Karen Fitzpatrick (PCMH fellowship director) and Dr. Shaylee Peckens (PCMH fellow) are providing assistance to several regional

primary care practices working on implementing medical home improvements.

WVU Healthcare's mission is to improve the health of West Virginians and all we serve through excellence in patient care, research, and education. The Department is committed to support Patient-Centered Medical Home in order to strengthen West Virginia

primary care and improve the health of West Virginians. For more information about PCMH, contact Dr. Karen Fitzpatrick at fitzpatrickk@wvuhealthcare.com

New Family Medicine Center

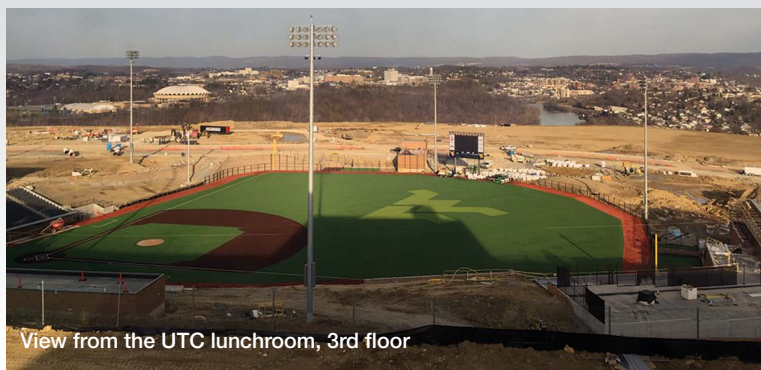

The NEW Family Medicine Center at the WVU Healthcare University Town Centre (UTC) will begin seeing patients May 4, 2015. The clinic features a wonderful view of not only Morgantown, but the new baseball park, scheduled to open in the spring of 2015.

In addition to the UTC being a primary care center of excellence featuring the Patient-Centered Medical Home model, the new facility will also house Family Medicine's Intensive Diabetes Group Clinic, Chronic Obstructive Pulmonary Disease Clinic, Acupuncture, and Eat Well Live Well programs. The Department will continue to offer evening clinic Monday through Thursday until 8:00pm. Beginning in July, the Department will hold Saturday morning clinic at the UTC.

Within the new facility, Family Medicine will be on the second floor and will include approximately 31 exam rooms, one procedure room, ample storage for medical equipment, a resident workroom, library, conference room, and convenient parking for both patients and employees.

The Department will have a small footprint for employees at the WVUH Physician Office Center beginning in the summer of 2015.

New Intern Class

The Department is excited to announce its new class of incoming residents!

Nationwide a total of 3,195 Family Medicine resident positions were offered. The six at the right will be joining WVU's Department of Family Medicine. We look forward to having this excellent group begin their residency training with the Department on July 1, 2015.

New Rural Scholars

Sean Hanlon is from Bruceton Mills in Preston County, WV. His Rural Scholar position is supported by the Claude C. and Stazie M. Rader Fund. After graduation from the Department Residency Program, Hanlon hopes to return and give back to the community that raised him in Preston County.

Nathaniel Linger is from Buckhannon in Upshur County, WV. His Rural Scholar position is supported by the Dr. John W. and Nancy B. Traubert Rural Scholars Fund. Linger is enrolled in the WVU School of Medicine Rural Track Program and plans to practice in his hometown of Buckhannon after graduation from the Department Residency Program.
