

MD STUDENT ORGANIZATION ANNOUNCEMENTS & WVU CSL ANNOUNCEMENTS MOTW May 9, 2017

REMEMBER TO RSVP ACCORDINGLY!

NEW ANNOUNCEMENTS (listed alpha)

REPEAT ANNOUNCEMENTS

RADIOLOGY CONFERENCE: There is an opportunity for free registration to any medical student that would like to attend the **American College of Radiology Conference 2017!** The events will be held May 20-25 at the **Marriott Wardman Park, Washington DC**. Numerous sessions have been earmarked as special interest sessions for medical students. Sessions will provide practical tools for career development, updates on the modern day practice environment, and the opportunity to meet peers and potentially, future colleagues. For more information and registration please view the attached flyer and website. <https://www.acr.org/Annual-Meeting/Med-Student> Please email myself (jpatter5@mix.wvu.edu) or Dr. Hogg (jhogg@hsc.wvu.edu) if you plan on attending, or if you have any other questions.

SHAPE: On **May 15** at 12 PM in Room 1905, SHAPE will be hosting a panel of healthcare professionals and employees of the university to discuss issues with LGBTQ healthcare. This is a great opportunity to hear from various members of the LGBTQ community about their experiences both with healthcare and their experiences treating patients. Since most of us will be treating members of the LGBTQ population at some point, this is a great time to learn about the best ways to care for those patients as well as hear about some of the personal struggles that the panel members have gone through. RSVP Here. <https://goo.gl/forms/rmwRY2UiWfdUXFmc2> Lunch will be provided! Questions? Contact Michael Phillips mdphillips@mix.wvu.edu

STUDENT LED WELLNESS GROUP: The student-led wellness group will be hosting a panel-type discussion on **Tuesday, May 23** at noon in room 1905. Dr. Sarah Sofka of Internal Medicine is considered our "expert" on this topic and will be giving a short introduction and background. She will then facilitate a discussion/question-answer session with some residents and upperclass medical student(s) who have experienced it, combatted it, and/or have tips for all of us blossoming physicians. Please RSVP at this link: <https://goo.gl/forms/c8JaFhy7LALrBBja2>

SURGERY INTEREST GROUP: Please join us for our last Surgery Interest Group (SIG) meeting of the semester as we host neurosurgeon Dr. Robert Marsh, who will provide some insight on the field of neurosurgery and how to pursue it. Lunch will be provided. When: **Thursday, 5/11** at noon; G-119B. RSVP food by this Thursday (5/4) https://docs.google.com/forms/d/e/1FAIpQLSf3UujkdNircfYEHUC3w5UKmt6kW14Hyjh9yJVEIoKSZ-XiAQ/viewform?usp=sf_link

WILDERNESS MEDICINE INTEREST GROUP meeting **5/12** noon-1 room 1106 HSCN (down the dental Hallway). Dr. Guilfoose will be talking about Lymes Disease. Questions? [Michael Niemann](#).
