

MS4 Case Logs: All students are required to enter their Case Logs in e-Value for Critical Care and Hospital Care required courses. Much like the MS3 clerkships, if you do not do this task, **you will fail your course.** As a 4th year student, you are the only person monitoring your compliance, so please do that today if you are on a required course rotation. All requirements are updated in SOLE and in E-Value.

How to Check Your Case Log Requirements – In E-Value, select the **Reports** tab → Procedure Summary by Trainee → on the drop down menu page you will select only the following:

- a. Start Date: July 1, 2017
- b. Procedure Group: Find your course group (e.g., MSIV MICU)
- c. Procedures: All Procedures
- d. NEXT
- e. Here you will see the most updated list of what you have completed or not completed
