

MLS Clinical Site Selection

CLS track only

The last 16 weeks (Spring Semester) of the educational program in Medical Laboratory Science involves rotations in one or more affiliated hospital clinical laboratories. Medical Laboratory Science students are responsible for their own housing and ensuring they have reliable transportation for their clinical rotation. Discounted housing may be available at the Charleston and Eastern Division rotations for Medical Laboratory Science students during the clinical rotation. The rotation sites and affiliated hospitals are;

- **Charleston Rotation** at Charleston Area Medical Center in Charleston, WV
- **Eastern Division Rotation** at WVU Medicine Eastern Division Hospitals in the eastern panhandle of West Virginia (CLS only)
- **Excela Rotation** at Latrobe Hospital and Westmorland Hospital in western Pennsylvania
- **Morgantown Rotation** at WVU Ruby Memorial Hospital and/or Mon Health Medical Center in Morgantown, WV
- **Pittsburgh Rotation** at Allegheny General Hospital, and The Western Pennsylvania Hospital as part of Allegheny Health Network in Pittsburgh, PA

If you have further questions about the clinical rotation site, please contact the Division of Medical Laboratory Science at medlabsci@hsc.wvu.edu or 304-293-2069.

Please rank (1st choice through 5th choice) your preference of clinical rotation site for the CLS track:

CLS Track

Rotation	Charleston	Eastern	Excela	Morgantown	Pittsburgh
