

Functional Vision Assessment - Data Collection

Student Name: _____

	Date	Technique	Outcome	Educational Relevance
Visual Fields				Reading, safe travel, driving
<i>Peripheral & Central</i>				

Results from Medical:

Acuity - Near				Reading, fatigue, sustainability
<i>Lea chart & text size</i>				

Results from Medical:

Acuity - Distance				Boardwork, driving, O&M
<i>Lea chart & boardwork</i>				

Results from Medical:

Contrast				High contrast worksheets & copies, bold markers on whiteboard
<i>Lea chart & print samples</i>				

Results from Medical:

Functional Vision Assessment - Data Collection

Student Name: _____

	Date	Technique	Outcome	Educational Relevance
Color				Color-coded assignments such as maps, graphs, charts
<i>Paint chips, discrimination, recognition, identification</i>				

Results from Medical: _____

Lighting				Glare, preferential seating, light filters
<i>Position, type, intensity</i>				

Results from Medical: _____

Visual Reflex				Vision impairment
<i>Visual threat, nystagmus</i>				

Results from Medical: _____

Visual Motor				Central acuity loss, Depth perception
<i>Hand dominance, visually guided reach</i>				

Results from Medical: _____

Functional Vision Assessment - Data Collection

Student Name: _____

	Date	Technique	Outcome	Educational Relevance
Binocularity				Seating placement
<i>Dominant eye</i>				
			Results from Medical:	

Motility				Reading, binocular vision, social acceptance
<i>following, tracking, localization, fixation</i>				
			Results from Medical:	

Convergence				Reading, eye strain & fatigue
<i>CISS (Convergence Insufficiency Symptom Survey), NPE (Near Point of Convergence)</i>				
			Results from Medical:	

Notes:
