

Time		Presenter(s)	Presentation Titles and Objectives
15	7:30 AM	<b>Breakfast / Registration</b>	N/A
15	7:45 AM	<b>Welcome / Announcements</b>	<b>Following these lectures, participants should be able to:</b>
45	8:00 AM	<b>Rachel Sobel, MD</b> Associate Professor of Ophthalmology Vanderbilt Eye Institute	<b>Title: Cases that Built Me: A case series of clinical scenarios that have illuminated my practice</b>  <b>Objectives:</b> <ol style="list-style-type: none"> <li>1. Name common biases and mistakes in surgical care.</li> <li>2. Analyze outside the box to diagnose and treat oculoplastic diseases.</li> </ol>
45	8:45AM	<b>Drew Scoles, MD</b> Assistant Professor of Ophthalmology Scheie Eye Institute University of Pennsylvania School of Medicine and Children's Hospital of Philadelphia	<b>Title: Retinopathy of prematurity related retinal detachment</b>  <b>Objectives:</b> <ol style="list-style-type: none"> <li>1. Identify patients who are at highest risk of detachment.</li> <li>2. Analyze approaches to detachment repair.</li> <li>3. Identify the outcomes after ROP detachment.</li> </ol>
45	9:30 AM	<b>Rachel Sobel, MD</b> Associate Professor of Ophthalmology Vanderbilt Eye Institute	<b>Title: Adventures in NLDO</b>  <b>Objectives:</b> <ol style="list-style-type: none"> <li>1. Name three mechanisms of tearing.</li> <li>2. Determine primary and secondary causes of NLDO.</li> <li>3. Describe research on prevention of radioactive iodine included NLDO.</li> </ol>
15	10:15 AM	<b>Break</b>	N/A
45	10:30 AM	<b>Preeti Patil, MD</b> Associate Professor, University of Pittsburgh Faculty-Division of Pediatric Ophthalmology and Adult Strabismus UPMC Children's Hospital of Pittsburgh and UPMC Vision Institute	<b>Title: Pediatric Idiopathic Intracranial Hypertension- Management and Challenges</b>  <b>Objectives:</b> <ol style="list-style-type: none"> <li>1. Identify presenting features of IIH in the Pediatric age group.</li> <li>2. Identify Pediatric IIH.</li> <li>3. Explain basics to management of IIH in children.</li> </ol>
45	11:15 AM	<b>Divya Srikumaran</b> Walter J. Stark MD, Professor of Ophthalmology Chief, Cornea, Cataract and External Diseases Associate Professor John Hopkins Wilmer Eye Institute	<b>Title: Cataract Surgery in Fuchs Corneal Dystrophy</b>  <b>Objectives:</b> <ol style="list-style-type: none"> <li>1. Examine the approach to cataract surgery in eyes with Fuchs Corneal Dystrophy.</li> <li>2. Determine when to perform combined EK and Cataract surgery.</li> </ol>
60	12:00PM	<b>Lunch</b>	N/A
45	1:00PM	<b>Drew Scoles, MD</b> Assistant Professor of Ophthalmology Scheie Eye Institute	<b>Title: Fluorescein angiography is not dead</b>  <b>Objectives:</b>

		University of Pennsylvania School of Medicine and Children's Hospital of Philadelphia	<ol style="list-style-type: none"> <li>1. Describe in what conditions should fluorescein be prioritized.</li> <li>2. Explain how fluorescein can change management in retinal disorders.</li> </ol>
45	1:45PM	<b>Preeti Patil, MD</b> Associate Professor, University of Pittsburgh Faculty-Division of Pediatric Ophthalmology and Adult Strabismus UPMC Children's Hospital of Pittsburgh and UPMC Vision Institute	<b>Title: Surgical management of Nystagmus</b>  <b>Objectives:</b> <ol style="list-style-type: none"> <li>1. Describe the need for surgery and indications for surgery in Nystagmus.</li> <li>2. Explain the different surgical approaches for cases in Nystagmus.</li> </ol>
45	2:30PM	<b>Divya Srikumaran, MD</b> Walter J. Stark MD, Professor of Ophthalmology Chief, Cornea, Cataract and External Diseases Associate Professor John Hopkins Wilmer Eye Institute	<b>Title: Update on Management of Keratoconus</b>  <b>Objectives:</b> <ol style="list-style-type: none"> <li>1. Describe Keratoconus and the social determinants of health that affect care.</li> <li>2. Explain emerging treatments for KCN.</li> </ol>
15	3:15PM	<b>Break</b>	N/A
45	3:30PM	<b>Joanna Kolodney, MD</b> Associate Professor Department of Medical Oncology West Virginia University	<b>Title: Ocular Toxicity Induced by Anticancer Agents</b>  <b>Objectives:</b> <ol style="list-style-type: none"> <li>1. Describe ocular toxicities associated with various anti-cancer therapies.</li> <li>2. Examine the various categories on anti-cancer treatments, focusing on their mechanisms of action and the ocular toxicities with each.</li> <li>3. Describe management strategies for treating cancer therapy associated ocular adverse effects.</li> </ol>
45	4:15PM	<b>Brian McMillan, MD</b> Associate Professor of Ophthalmology Glaucoma Fellowship Program Director WVU Eye Institute West Virginia University	<b>Title: Lifestyle Modifications and Glaucoma</b>  <b>Objectives:</b> <ol style="list-style-type: none"> <li>1. Describe how nutrition can affect intraocular pressure and glaucoma incidence.</li> <li>2. Explain the influence of exercise and stress reduction on glaucoma.</li> <li>3. Identify developing literature on systemic medications and supplement use in glaucoma.</li> </ol>
	5:00PM	<b>Adjourn</b>	N/A
